**Alexandre Navarro**  
**Biography**

---

Alexandre Navarro is guitarist, composer and independent producer. He was born in 1974, raised in Bordeaux and currently living in Paris, France. Besides his studies in anthropology, specialising in history of ideas and religions, he studied electroacoustics and concrete music at CNR (Conservatoire National de Région). He composed for different labels/netlabels (SEM label, Realaudio, Archipel, Mandorla, Standard klik Music, EKO netlabel, IOD, Zymogen), art projects, various exhibitions and some supported by the "Fonds National d'Art Contemporain" (FNAC), which were shown all over the world. He's also the founder of SEM label in 2007 in association with Sacha Vojvodic. Previously concentrated on electronic laptop music under the name of Navarro, his sound is actually now more organic and based on electric guitars experimentation.
